Project Name	Emotion Detection and Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning

This document outlines the complete demonstration plan for the **Emotion Detection and Learning Support Engine (EDLSE)**. The demonstration is organized to present the problem statement, solution overview, live system execution, emotion detection, personalized learning recommendations, report generation, and final discussion in a clear and structured manner..

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Explain the problem statement, project objectives, and motivation behind emotion-aware learning.	2	J.Nageswari
2	System Overview	Present the solution architecture, workflow, AI models, and technology stack.	3	A.Shalini
3	Live Demonstration	Demonstrate webcam/image upload, voice/text input, emotion detection, and personalized learning recommendations.	5	A.Niharika
4	PDF Report Generation	Generate and download the emotion analysis and learning	2	B.Kalyani

S.No	Demo Section	Description	Duration (mins)	Responsible Member
		progress report.		
5	Project Features	Explain emotion detection, recommendation engine, analytics dashboard, and progress tracking.	3	J.Nageswari
6	Questions & Answers	Respond to evaluator questions, discuss future enhancements, and conclude the presentation.	3	G.Pavitra

---

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project and explain the need for emotion-aware learning systems.
2	Solution Overview	Describe the system architecture, AI modules, workflow, and technologies used.
3	Live Feature Demonstration	Show webcam/image upload, voice/text input, AI-based emotion detection, personalized learning recommendations, dashboard analytics, and PDF report generation.
4	Q&A Session	Answer evaluator questions, discuss future enhancements, and conclude the project demonstration.
